DRAFT

30 July 1959

In further response to your letter ofJuly 1959,	
I would like to point out that we have had an employee association	
health insurance program since 1948. Through good experience	
and increased participation it has grown from a very merger	STAT
plan to one which now provides very excellent coverage.	
hosipital and surgical claims in 1958.	
this Agency has some security unique problems which	
o date have adequately been solved by handling hospitalization	
laims through our own association, Tis requested that the	
oill before your committee be so drafted as to allow this agency to	
ontinue to handle this matter as it has in the past. Then	
matter has been discussed with offering of	
he civil lavice Commission and They indicated	
a sympather attitude to our problems.
